80 sq.m | Bathrooms: 1 | Bedrooms: 1 | Rooms: 2

Palazzo Ferrini construction site, Milan
 Newly built apartments for sale in Milan, Piazzale Libia area

Elegance in Milan has a new name: Palazzo Ferrini. A building undergoing total redevelopment where class and refinement are the expression of a new lifestyle. A luxury residence made up of eight elegant and sophisticated apartments. A bright, open environment with a modern style that integrates harmoniously with the aesthetics of the building. A new way of living in Milan between innovation and the future. The neighborhood with its clubs, bistros, historic shops and workshops still retains a typically Milanese mood. Available typologies: studio apartments, two-room apartments, three-room apartments and attics with floor-to-ceiling windows, offer the emotion of always airy and bright environments, which blend in with the surrounding environment. Finally, the degree of internal finishing is surprising: Underfloor heating system, ducted cooling and hot water production consisting of an electric air-water heat pump system with high energy efficiency, latest generation windows and doors. The construction is guaranteed in energy class A3. Delivery July 2024
